

Chugai Pharma UK LTD, Chugai Pharma Marketing LTD and Chugai Pharma Europe LTD believe it is important to be transparent regarding interactions with Healthcare Professionals (HCPs) and Healthcare Organisations (HCOs).

- Patients benefit from the collaboration between Healthcare Professionals and the pharmaceutical industry through the development and appropriate use of innovative treatments that improve and extend life.
- Healthcare Professionals and pharmaceutical companies regularly work together from early scientific research and clinical trial programmes to the use of medicines in the patient pathway.
- As an integral part of the medicines development process it is entirely appropriate that fees are paid to Healthcare Professionals to reimburse them for their time and expertise.
- The pharmaceutical industry is committed to ensuring the transparency of relationships with Healthcare Professionals. Across Europe the industry has announced its intention to disclose payments to Healthcare Professionals at an individual level by 2016 for payments made in 2015 onwards.
- As part of this journey, in 2013 and 2014, ABPI member companies are taking the early step of disclosing the total figure paid to all Healthcare Professionals during 2013 and 2014, plus the number of Healthcare Professionals that received payments (<http://www.abpi.org.uk>). The Ethical Standards in Health and Life Sciences Group (ESHLG), a group of twenty organisations working together to improve how Healthcare Professionals and the pharmaceutical and life sciences industries work together, is consulting on approaches to disclosure payments to Healthcare Professionals at an individual level. The consultation can be accessed at <http://www.eslsg.org>.

<b>Total</b>		<b>£1,200</b>

**5. Joint Working:**

Joint Working describes situations where, for the benefit of patients, NHS and industry organisations pool skills, experience and/or resources for the joint development and implementation of patient-centred projects and share a commitment to successful delivery. Many such projects have been successfully implemented, benefiting patients across the UK.

Chugai will comply with Joint Working policies as defined by the ABPI in all discussions and arrangements.

<b>Name of Joint Working Project</b>	No joint working agreements were discussed or undertaken in 2014
